

Eldean Shipyard

Macatawa, Michigan

-Yachting at Its Finest Since 1901

Dear Customer,

At Eldean Shipyard we realize your boat is one of your largest and most important investments. We also realize how important it is to have a safe and trouble free boating season.

As you may know your boat's marine engine(s) must work harder and is under a much heavier load than an automobile or truck engines. Repairs, or replacement, of your marine engine(s) is much more expensive and may be more frequent if high quality marine grade fuels and lubricants are not used.

Good performance, low maintenance costs and long engine life are critical to your boating enjoyment and help to reduce the cost of operating your boat. ***This is why we provide ValvTect Marine Gasoline and ValvTect Premium Marine Diesel at our fuel dock.*** Unlike the automotive brands of gasoline, or commercial grades of diesel fuel offered at gas stations and non-ValvTect marinas, ValvTect Marine Fuels are specially formulated for your heavy-duty marine engine(s) and marine operating conditions.

ValvTect Marine Gasoline with Ethanol Gasoline Treatment is specially formulated to help:

- Prevent problems caused by ethanol blended gasoline such:
 - Corrosion & phase separation
- Keep fuel stabilized and fresh for up to a year or more
- Clean-up existing and prevent new carbon deposits (gunk)
- Prevent premature wear and extend top engine life
- Increase engine power and acceleration
- Reduce fuel consumption

ValvTect Marine Premium Diesel with BioGuard micro-biocide is specially formulated to offset problems caused by the new ultra low sulfur diesel fuel. It is formulated to:

- Be free of bacteria and algae
- Stabilize the fuel to keep fuel fresh up to a year or more
- Prevent sludge and filter plugging
- Extend fuel filter life
- Disperse water to prevent corrosion
- Clean-up and prevent fuel injector deposits
 - increase engine efficiency and power output
 - reduce smoke, odor and transom soot
 - reduce fuel consumption
- Lubricate fuel pumps and fuel injectors

The use of ValvTect Marine Fuels will help you get peak performance, lower operating costs and longer engine life from your marine engine(s). No other fuel additives are needed or recommended. Additionally, the use of ValvTect Marine Fuels will help reduce harmful exhaust emissions thus helping to improve water and air quality.

We wish you a safe and enjoyable boating season, For more information about ValvTect Marine Fuels contact ValvTect Petroleum Products at 800-728-8258 or visit ValvTect's web site at www.valvtect.com.

Thank You! - Eldean Shipyard
